C5510 MFP

OKI
PRINTING SOLUTIONS

The first, fast, professional and affordable A4 colour Multifunction Product

The C5500 Series of MFPs from OKI Printing Solutions offers your business something it has never been able to benefit from before: fast, affordable colour and mono printing, copying, network scanning and PC faxing from a single A4 MFP. Versatile and highly reliable, it doesn't just do the job of several machines – it does it better. Saving space. Saving time. Saving money.

High speed, low cost network printing.

If you need high quality network printing, and you need it fast, the C5510 MFP is the most cost effective solution on the market. Delivering 12 pages per minute (ppm) colour and 20ppm mono, at maximum resolution, it is up to 3 times faster than the best performing inkjet MFPs and running costs are no higher than our C5000 Series printers.

Easy e-mail. Simple scanning.

Designed to make life easier the C5510 MFP is remarkably simple to use. The intuitive operator panel makes network scanning easy and provides access to e-mail and FTP address books at the touch of a button, so you can scan-in hard copy documents and e-mail them directly from your MFP, as easily as from your PC.

High Speed, high quality copying.

For speed, clarity, definition and consistency the C5510 MFP is the best colour MFP copier in its class. The high quality scanner, market leading single-pass LED technology, straight paper path, and fewer moving parts provide an unbeatable combination which means fewer paper jams, smoother handling across a wide range of paper weights, and photocopier speeds at printer quality.

An intelligent choice for the intelligent business.

The C5510 MFP is supported by class-leading software solutions including: ScanSoft® PaperPort® which enables you to easily file and store your documents electronically, Optical Character Recognition (OCR) software which allows you to turn scanned images into editable text documents and PC Fax software which allows you to send faxes from your PC without the need for a separate telephone line. What more could you ask for? Instant on-line advice? The 'Ask OKI' tab in your printer driver takes you straight to an information packed website specific to the C5510 MFP.

Highlights:

- **12ppm/cpm colour and 20ppm/cpm mono**
- **1200 x 600 dpi output resolution/48 bit, 4800 dpi scanning resolution**
- **Scan to e-mail, scan to FTP, and scan to archive**
- **ScanSoft® PaperPort® software makes filing and storing documents quick and easy**
- **Optical Character Recognition (OCR) software turns scanned images into editable text documents**
- **An Automatic Document Feeder enables you to scan up to 50 sheets hassle-free**
- **Template Manager software makes printing a range of document formats from business cards to banners, quick and simple**

C5500 Series
